Information presented based on applicant provided data. Total Jobs includes existing baseline jobs at the time of the application and the applicant's projected number of new jobs over a five year period. Total five year payroll is the sum of 1) annual payroll associated with existing baseline jobs, multiplied by five to cover a five year period, and 2) payroll associated with new jobs over a five year period, with the payroll including anywhere from one to five years of annual payroll for each new job depending on when the applicant projects the job to be added. Jobs associated with the construction, renovation, or addition to the facility are not included.

20130822-ITE	Boise Packaging & Newsprint, LLC	Beauregard	The OCC plant recycles tons of old corrugated containers (OCC). The OCC plant incorporates equipment for the removal of waxes and other additives through washing and cleaning. It processes the old corrugated, reducing it to fiber suitable for production of quality linerboard.  "D3" is the project to convert the No. 3 newsprint machine to containerboard, producing lightweight linerboard and medium, and exit the newsprint business. 20150345-ITE	Chemtrade Refinery Services Inc.	Caddo	<p>Fenceline Monitoring System (Project 900231) This project was done to purchase and install an upgraded analyzer and data logger for the fence line monitoring system. The fence line monitoring system was required to be installed in 1998, as the result of an administrative order agreement with the Louisiana Department of Environmental Quality; this system is now a requirement of our air permit. The air permit requires four sample probes, and four separate analyzers connected to a data logger.</p> <p>900 Tank Platforms (Project 900402) This project was done to replace the corroded steel access platforms above the waste treatment tanks, using the same structure, but with corrosion resistant coatings of all structural steel to prevent future degradation. Existing steel platforms have been in service for 20 years. Exposure to water treatment chemicals and corrosive fumes from treatment tanks has corroded parts of the structure to the point that they are no longer structurally sound. This project w</p>	Miscellaneous Capital Addition	0	\$0	\$361,189	10889 Highway 1	Shreveport	Rhonda Berwick (409) 434-5380	325181	\$74,622

20130987-ITE	Cleco Power LLC	Rapides	<p>In December 2011, the EPA issued its Final Utility MATS Rule. The rule sets limits for Mercury, Acid Gas (HCL or SO2 as a proxy) and Particulate Emissions for solid fuel units. Rodemacher Unit 2 ("PRS2") is subject to compliance with this new Rule. Sargent &amp; Lundy was engaged to determine the ability of the existing controls to meet the new standards and concluded additional controls would be needed. To meet the acid gas requirements a scrubber or dry sorbent injection with a fabric filter (or bag house) will be required.</p> <p>RPS1 is presently equipped with two electrostatic precipitators in a hot side arrangement with no flue gas desulphurization system. RPS2 burns low sulfur Powder River Basin coal and, therefore, does not require a scrubber. Numerous strategies for compliance with the MATS Rule were evaluated. Cleco Power has determined that the appropriate compliance strategy for RPS2 to ensure compliance with the MATS Rule is the addition of stand-alone fabric filters, which</p>	Addition	0	\$0	\$45,530,139	275 Rodemacher Road	Lena	Mike Vandavelde (318) 484-7515	221112	\$7,958,668

20131215B-ITE	Stowe Woodward LLC	Lincoln	The original scope of this expansion was to enlarge our metal shop repair facility, add a new wash bay, parts storage area, and expand our rubber storage behind the extruder. Metal work repair on paper mill rollers has been an expanding part of our business for the past few years. More room was needed to accommodate this growing business. Given this growth, our BOD decided to hold their meeting here and a new conference room was added to this project along with an office facility upgrade. <p>Information presented based on applicant provided data. Total Jobs includes existing baseline jobs at the time of the application and the applicant's projected number of new jobs over a ten year period. Total ten year payroll is the sum of 1) annual payroll associated with existing baseline jobs, multiplied by ten to cover a ten year period, and 2) payroll associated with new jobs over a ten year period, with the payroll including anywhere from one to ten years of annual payroll for each new job depending on when the applicant projects the job to be added. Jobs associated with the construction, renovation, or addition to the facility are not included.</p>

20140927-QJ	Centene Management Company, LLC	St Tammany	Founded as a single health plan in 1984 Centene has established itself as a national leader in the healthcare services field. Centene is experiencing rapid growth and evaluating how, and at what locations, they can accommodate this growth. The Covington location would function as support for member and provider services as well as housing the leadership team. As the majority of these new and existing positions support members and providers company-wide, they are able to perform duties at any location. Centene is exploring the best options for this expansion. ## Restoration Tax Abatement Program

Application Number	Company Name	Project Parish	Project Description	Project Type	New Jobs	New Jobs Annual Payroll	Total Investment	Project Address	City	Contact	NAICS	RTA Estimated Five Year Tax Exemption on the Renovation
20131328-RTA	1111 Tulane Partners, LLC	Orleans	Restoration of 9 story apartment building and commercial space, plus parking spaces.	Restoration	5	\$225,000	\$29,000,000	1111 Tulane Avenue	New Orleans	Ben Rivera (504) 827-1869		\$4,839,375
20131060-RTA	127-129 Carondelet, LLC	Orleans	127-129 Carondelet Street is a former law office building that was vacated when the law firm moved to other accommodations. The office building is a dated building that had its last major renovation in the early 1980s when a savings & loan bank renovated the building for its downtown branch. The built-out space was in poor condition, especially on the first floor. There were missing ceiling tiles, holes in sheetrock, missing sheetrock, damaged flooring, water damage, and very aged mechanical and electrical systems. Thus, the Restoration Tax Abatement was necessary to return this blighted building back to a fully renovated mixed-use historic building.	Renovation	5	\$102,000	\$2,338,596	127-129 Carondelet Street	New Orleans	Josh Gertler (504) 261-8048	0	\$390,253

20141296-RTA	1520-2 Felicity, LLC	Orleans	1520-22 Felicity was built in the 1890s in the traditional Greek Revival style. Architectural features include decorative corbels, milled windows and decorative iron railings. The property included two town home style apartments with high ceilings, plaster medallions and tall baseboards. In recent decades, the property received little capital improvement and was broken into in 2013 with architectural features stolen or damaged. Our renovation plans will convert the property into four town home apartments and fully restore the property. The project scope includes new mechanical, plumbing and electrical systems. The building envelop will be replaced with cedar weather boards, insulation and painting. Structural shoring will re-level the home and we will replace termite damaged framing and sill beams. Interiors include new drywall, restoration of the heart pine flooring and new kitchens and bathrooms.	Renovation	0	\$0	\$1,254,133	1520 Felicity Street	New Orleans	William Patrick Schindler (504) 586-8305	11111	\$209,942

20140110-RTA	1700 S. Rampart St., LLC	Orleans	<p>The purpose of this document is to outline work to be performed pursuant to the Restoration Tax Abatement program (hereafter RTA), and provide other information pursuant to our RTA application. The above property is an historic landmark, and was purchased in January 2014. Advance notification was supplied prior to any construction work on the property. At the time of purchase, the property was vacant and badly blighted. An addition on the rear of the property was destroyed by termites, and most of the doors were missing throughout the entire structure.</p> <p>We are undergoing a complete historic restoration to the building, as per approved plans and HDLC approvals. Hard siding has been removed which reveals wooden cypress siding that is being restored. Existing historic flooring is being restored where possible, new windows and doors are being custom milled to match existing, and old</p>	Restoration	3	\$10,000	\$292,000	1700 S. 20140156-RTA	622 First Street, LLC	Orleans	The present structure is in major disrepair and has been declared blighted by the City of New Orleans. The house sustained major wind and water damage to the roof, interior, and foundation as a result of Hurricane Katrina in August 2005 and has sat unattended since that time. It is, however, not beyond repair. The original one and a half story house, built in the 1890's, has a great amount of historical significance. This wood frame camelback shotgun double home, rectangular in shape, has a 4-bay façade. From front to back each side is 5 rooms deep. A smaller 6th room in the form of a bathroom was a later alteration to the rear of each side as indoor plumbing became available. The home is raised three feet off the ground and the foundation consists of wood sills (poor condition) which sit on wide brick piers. The façade's openings are arranged in a door/window/window /door configuration with retention of the original doors and two 9 over 9 light double hung windows. The fa	Restoration	0	\$0	\$400,000	622 First Street	New Orleans	Jason Riggs (504) 931-9320	11111	\$66,750

20131123-RTA	Carondelet Partners, LLC	Orleans	The project will be for the renovation and conversion of an underutilized class C office building into boutique style hotel with a brand that is new to the City of New Orleans. The property is a 9 story masonry building of Art Deco style and was constructed as a furniture store and was at the time the largest retail store in the south. The property was closed as a retail store and used as class C multi-tenant office space in its most recent history. As new class A office buildings were constructed in the City and oil and gas industries consolidated to those new facilities, the building has become increasingly functionally and economically obsolete. The renovation will put the building back into service with a use that has greater utility, economic viability, creates jobs and enhances the tax base.	Renovation	80	\$3,200,000	\$20,242,800	600-28 Carondelet Street	New Orleans	Karl Kehoe (504) 866-6506	721110	\$3,378,017

20120673-RTA	Peter Adam Kelly	Orleans	<p>Rehabilitation and renovation of a single-family home in a New Orleans historic district. This home was vacant and unattended for over one year prior to purchase. Poor quality materials used in a prior renovation dating to circa 1992 and poor upkeep resulted in significant deterioration of the structure. Renovation will include leveling and reconstruction of brick and concrete foundation elements, replacement of all windows, repair of doors, renovation/upgrade of kitchen and bathroom, removal of non-functioning and deteriorated chimneys, and replacement of missing original walls. The perimeter wood fence will be upgraded, and wrought iron fence and gate in front will be repaired. Wood columns will be replaced with wood brackets, and wood porch railings will be repaired.</p> <p>This project is also enrolled in the State of Louisiana Residential Rehabilitation Tax Credit Program, Application R147, approved 4/26/12.</p>	Renovation	0	\$0	\$110,000	1014 Aline Street	New Orleans	Peter Kelly (504) 899-8153	999999	\$19,841

20141405-RTA	Terrace of Hammond Phase II, Limited Partnership	Tangipahoa	<p>Terrace of Hammond Phase II, Limited Partnership purchased the property in April, 2014. This project, Terrace of Hammond Phase II ("Phase II") is a rehabilitation of 8 multifamily apartment buildings (Buildings 8-15) of the project formerly known as Pine Creek University Apartments. The project was a FHA insured project that has gone through foreclosure and is located in a difficult to develop area as identified by HUD. Over the last several years, the project has fallen into severe disrepair such that many of the units are currently not occupied. The Louisiana Housing Corporation ("LHC") has allocated 2014 Federal Low Income Housing Tax Credits in the amount of \$610,000 per annum to the project. The project will be rehabilitated as an affordable housing community in accordance with the IRS Section 42 Low Income Housing Tax Credit Program ("Section 42").
