Sue,

It was a pleasure speaking to you this morning. Attached you will find the following:

Bollinger Algiers ITE application from the State LDED Fastlane system
Sample resolution that our company will need from the Orleans Parish School Board
Communication from LDED that confirms that Bollinger Algiers can apply for a 5 year 100% exemption and a 5 year 100% renewal for the project.

Please review and let me know if you require any additional information. I am more than happy to come meet with you or attend any meetings if that helps with the consideration of our application.

Thanks and please confirm that you received.

Sheriff,

We are ready to move forward with the Industrial Tax Exemptions (ITE) applications we discussed with you a few months back. We are filing one for the Lockport yard and one for our facility in Fourchon. I have generated samples of the letters we will need from you as well as the background information on the applications.

Please let me know a good time for us to meet to review. I can meet you at your office or we can do it here at the shipyard if you prefer. I can also email you the documents if you would like a chance to review prior to us meeting. Just let me know what works best for you.

As always your support and assistance is greatly appreciated.

Subject: ITE Applications

Adam,

Bollinger Shipyards will soon be submitting 2 Industrial Tax exemption applications for consideration. As you may be aware of the State changed the rules of the program several times in the last couple of years and it now requires approval at the local level. It is my understanding that no application has been approved for Lafourche Parish since the rules were amended to include local input.

Does the parish have a mapped out process that we need to follow to solicit approval?

Thanks,

CPR

Subject: Question

Don,

I hope all is well with you and your family.

Bollinger Shipyards will soon be submitting 2 Industrial Tax exemption applications for consideration. These applications would exempt property taxes on the improvements we made in 2017 at two of our Lafourche Parish facilities.

As you may be aware of the State changed the rules of the program several times in the last couple of years and it now requires approval at various local levels including the School District. It is my understanding from the State that no application has been submitted for approved for Lafourche Parish since the rules were amended to include local input.

Does the School District have a mapped out process that we need to follow to solicit approval? Is the School District going to consider our applications or has it taken a position of not granting any new exemptions?

Please advise and I am more than willing to come meet you to discuss in more detail.

Thanks,

CPR

Frank,

Thanks for taking the time to meet with me yesterday and attached is an updated application that has the correct job and payroll information. Also attached is the email from Hud concerning the 5 year renewal at 100% because of the date we filed the advance notification.

Please let me know if you need anything else on our end.

Thanks,

Subject: RE: ITEP Definitions and Program Overview

Please find attached a draft of our request to be considered for our exemption application. In addition I have attached a confirmation from LDED that because of the date we filed the advanced notification for this project we technically could still qualify for 100% exemption for 5 years and a 5 year renewal at that amount. Our company realizes the Parish has changed its rules so that full exemption may be off the table completely but since by LDED rule we would be eligible we are asking for consideration.

Please review the draft and feel free to offer any additional comments or suggestions to enhance our efforts to secure approval for the exemption. As always your assistance is greatly appreciated.
